N
The local community surrounding Fallbarn Park want to improve it.

Initial community consultation was carried out using questionnaires and using social media. From these consultations a more detailed concept design has been produced—see overleaf.

Please look at the design and complete the short survey below. We will use this information to change and adapt the plans to suit the general needs of local residents and try to seek the funding required. Please note: Funds are not guaranteed.

1. What do you like about the plan?

2. What do you dislike about the plan?

3. What changes would you make to the plan?

4. Do you have any further suggestions?

Thank you

Please return this survey by either posting it into the comments box or by using the return envelope provided.

Plans and further information can be viewed at:
