

TELL US WHAT YOU THINK? SEE OTHER SIDE

rising bridge play area sketch ideas

Paths

new path created around outside of play area linking the play area to the entrances and making it easily accessible

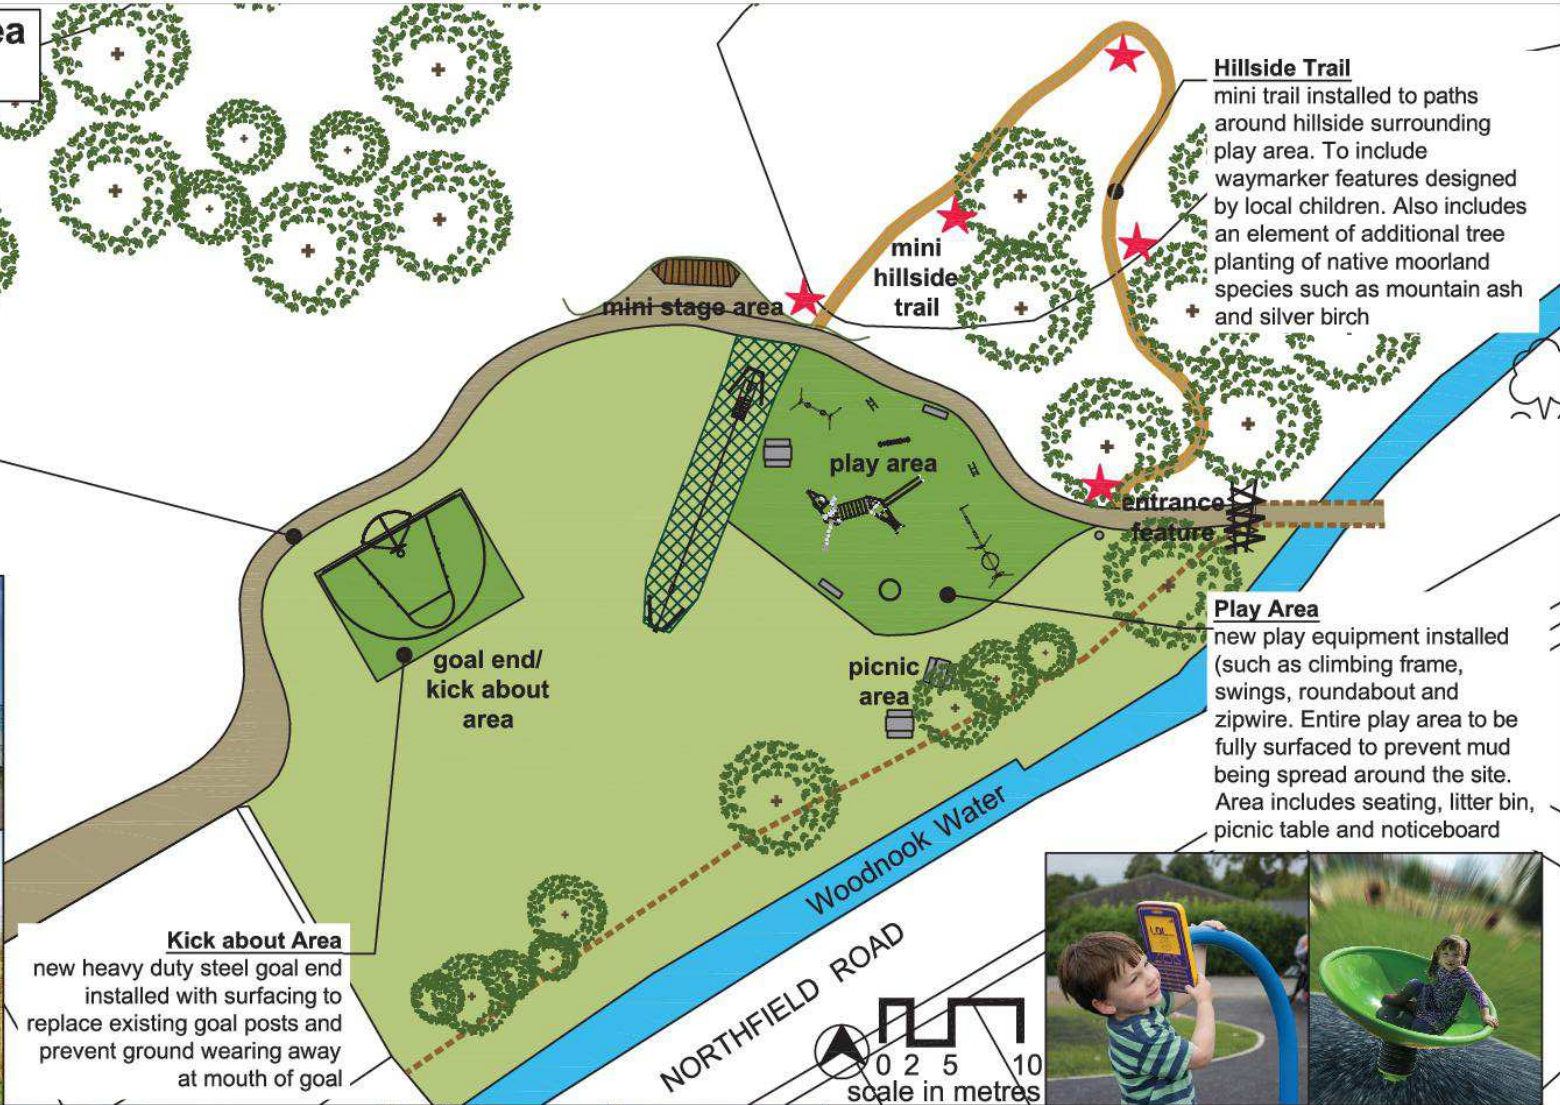

new goal end with surfacing

potential for new entrance archway at Northfield Road

hillside walk with waymarkers designed by local children

Hillside Trail

mini trail installed to paths around hillside surrounding play area. To include waymarker features designed by local children. Also includes an element of additional tree planting of native moorland species such as mountain ash and silver birch

mini hillside trail

Play Area

new play equipment installed (such as climbing frame, swings, roundabout and zipwire). Entire play area to be fully surfaced to prevent mud being spread around the site. Area includes seating, litter bin, picnic table and noticeboard

Kick about Area

new heavy duty steel goal end installed with surfacing to replace existing goal posts and prevent ground wearing away at mouth of goal

performance space built into site for creative play

zip wire with grass mat surfacing

range of new play equipment to replace existing

Rising Bridge Play Area

The local community of Rising Bridge want to improve the play area there.

In the initial stages we have asked local people how the play area should be improved. We have used this information to draw a simple but more detailed sketch design which you can see on the other side of this paper.

Please look at the design and complete the short survey below. We will use this information to see if we have got it right, or make any changes to the plans to suit local people and **try to** get the funding needed to make the changes. We need to get a lot of completed questionnaires to help us make our case to get the funding.

Please note: Funds are not guaranteed.

1. What do you **like** about the plan?
2. What do you **not like** about the plan?
3. What **changes** would you make to the plan?
4. Do you have any further **suggestions**?

Please fill in your contact details here so we can inform you of any developments.
