

EDENFIELD PLAY AREA

sketch proposals

Bike Track
bike track/pump track created alongside kick about area with stone/gravel surface

Kickabout Area
proposed large 5 a side grassed kick about area with new drains and move level pitch

Earth Mounding
to be created from excavated material on site and used to create a bund/separation between the pitch and play area and visual buffer for neighbouring residents

Junior Area
new junior equipment could include tall swings, basket swing, zip wire, large climbing frame and spinners. Area to be surfaced with sand filled carpet. No fence proposed around junior area

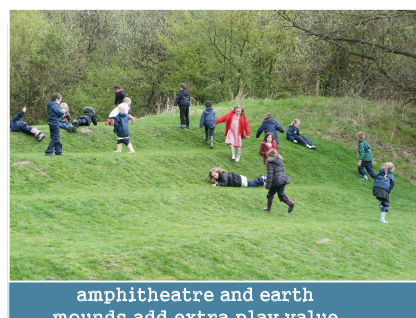

Retaining Wall
new timber retaining wall created around play area to create sufficient level space to build new play area. Exact location and specification to be determined through levels survey

Toddler Area
new area to include swings, see saw, roundabout, springies, challenging climbing frame and imaginative play unit. Entire area around units to be surfaced and fenced. Grassed area to be included within fencing, specially for toddlers

Water Fountain
stonework around fountain to be repaired and decorative elements on the fountain to be reinstated. New surfacing laid up to and around fountain to create more of a formal seating area

formal area and restored fountain stonework

Current Play Area
old play equipment to be removed. Potential for site to be used as 'Incredible Edible' growing area or turned into wildflower meadow

amphitheatre and earth mounds add extra play value

new play equipment to be challenging and fun

hedgerow wildflowers planting along site boundary

timber retaining wall around play area to create level area

natural stone flags and sett used in formal area

new kick about area created with improved drainage
