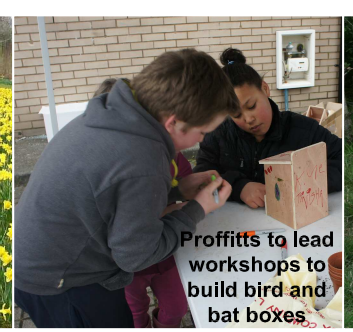
GREEN SPACES
large open spaces to be planted with a variety of bulbs in swathes to give a burst of spring colour. Bulbs to range from daffodils (different heights and colours), crocus and grape hyacinths

WILDLIFE AREAS
area left 'wild' to benefit nature. Existing planting to be enhanced with native bulbs such as snowdrop and bluebells to enhance the appearance of the area and new bird and bat boxes installed to create mini wildlife havens. Potential for additional planting of native fruiting shrubs such as hazel and dog rose to be planted cheaply as 'whips' and for the community to create 'bug hotels' in these spaces

swathes of colourful spring bulbs to enhance the open green spaces



Proffitts to lead workshops to build bird and bat boxes

bug hotels could be created in community workshops to further enhance wildlife areas
